

it's not **COOL**
to leave me in a hot car

The temperature
inside your car
can rise **20%** in
10 minutes.

Keep your pets safe — leave them at home.

Outside Temperature	Inside Auto 4 Windows Cracked
84°	98°
88°	103°
90°	108°
92°	109°
95°	113°

Here are some **Fahrenheit-friendly**
tips to keep you and your animals **cool**:

- 1.** Check the temperature:
If it's over 75° leave your pet at home.
- 2.** Car interiors can increase by 20% in 10 minutes.
That's enough to kill an animal or cause brain damage.
- 3.** If you must:
 - Park in the shade
 - Keep it short / check in often
 - Leave the windows down
