

Let's get fluffy!

Help us raise money for new dryers!

As in any household, appliances choose the absolute WORST time to go out, and unfortunately the dryers at HSSC decided that now was the time to go on the fritz. They konked out and because they are heavy duty industrial dryers they will cost more to fix than to replace!

Laundry happens all day, every day at HSSC- we wash and dry as many as 14 loads per day!! Clean laundry is essential to the care of our shelter animals and we need your help right now to keep the laundry flowing and our animals safe, clean and cozy! In order to replace our broken dryers with sturdy, durable new ones, we need to raise \$3,000 in the next week so we can get back up and drying as soon as possible!

Any amount helps and our clean, warm and fluffy shelter animals will thank you! ❤️

News from our Shelter Hospital

Droolius Caesar was transferred to us from another shelter that was unable to meet his medical needs. In addition to being FIV-positive, he had an upper respiratory infection (URI) and a severely matted coat. After he came into our care he was first treated for his URI, then once he was feeling better he was scheduled for neuter surgery and a shave down.

When our medical staff began to shave him, they discovered a number of foxtails embedded in his skin. Foxtails are the seed portion of certain grasses and are barbed, which causes them to move in one direction only. They can get into an animal's nose, ears, eyes, between their toes, and under the skin, and then they migrate inward. They can cause abscesses, ruptured

eardrums, cataracts, and can even end up in the chest cavity and the brain.

Luckily our medical staff was able to remove the foxtails before they migrated very far. He had several of them in his right armpit that had abscessed, and required the placement of a drain under the skin to keep fluid from building up while he was treated with antibiotics. He is now recovering and getting ready to go up for adoption. He is a sweet and affectionate boy, and we hope he finds his forever home very soon! ❤️

HSSC Shelter Medicine and our CVC are still performing life saving procedures and surgeries during the shelter in place. We are so grateful to have such dedicated medical professionals caring for the animals who need it most.

Any gift you can spare right now will do a world of good for our shelter animals and allow our medical and animal care teams to continue saving these precious lives.

THANK YOU FOR YOUR SUPPORT!
